EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER

Cliffex Software Solutions | Noida | OCTOBER, 2022 – PRESENT

PROJECTS AT CLIFFEX

IOI – DRIVERS

This is a project related to delivering the cars of the customers to their desired locations, this project has three web applications made on **ReactJs**, Dealer, Driver and Admin Panel. I build the Dealer Panel, it includes all the major CRUD operations in it, I used **ContextAPI** to manage global states and also used **Formik** library for form handling. Implemented ReactJs with industry standards. The project is on the final stage. The application has Map and Chat functionality also, Map I integrated with the help of google-maps-api(npm) and Chat I integrated with **Socket.IO**

INTELLISPINE

This was the project which was initially assigned to me and I made the LogIn/SignUp functionality in this project. Got insights about how React workflows are managed and written. Got to know about the Routing mechanisms used in ReactJs.

FLUTTER DEVELOPER

GKB Labs Inc. | Secunderabad | Work From Home | APRIL, 2021 – SEPTEMBER, 2021

ASSOCIATE ENGINEER

The Tech Cubes | Pune | Work From Home | JANUARY, 2020 – DECEMBER, 2020

EDUCATION
