WORK EXPERIENCE

Frontend Developer VOCSSO pvt ltd.

01/2022 - 09/2022

Achievements/Tasks

- I was working on the organization's personal project's website, the task is to make the UI according to given pdf images and responsive across all the screen sizes and to add the logics to the website.
- I do daily task which includes to add feature or update the styling and API integrations etc. in some other projects.

Frontend developer Redsoft solutions pvt ltd

12/2022 - 04/2023

Achievements/Tasks

- I work as a frontend developer here and I was working on project called METAJUICE (NFT Marketplace) which is a platform where a user can buy and sell their NFTs.
- In METAJUICE (NFT Marketplace) responsibilities is to make the UI of the website from scratch according to the given FIGMA file by using the tech-stack REACTJS & TAILWIND CSS. I also worked on the smart-contract functions integration.
- I also worked on the API integration and the smart contract functions integrations in some pre build projects.
