EXPERIENCE

Associate Software Engineer

MITYUNG Infotech (P) Ltd.

📅 05/2022 - Present 📍 Noida

- Trained a short & dynamic team for a span of 2 months.
- Worked on three mega projects with 10 members of the team.
- Built fully responsive UI and created an account flow with multiple validations and their custom applications.
Create UI for multiple roles of users and display data based on their roles.
- Create protected routes using Redux so that no one can excess without a token.
- In CRUD operations, we have used Axios throughout the application.

Software Intern

MITYUNG Infotech (P) Ltd.

📅 03/2022 - 04/2022 📍 Noida

- Create a static and responsive website for MITYUNG Infotech.
- Displaying nested JSON data in table and different types of date formats.
- Applying API calls to get all the data and form validation using JavaScript as well as React Formik.

PERSONAL PROJECTS

Life School

🌐 <https://github.com/sak03/life-school.git>

This is a simple web application made on react that has three users called admin, teacher, and student. The UI will reflect on the basis of Users.

Centrik-App

🌐 <https://github.com/sak03/centrik-app.git>

This is a simple e-commerce application made on react. In this project, I fetch product data, distribute them by their categories, and applied search filtering.

Weather App

🌐 <https://sak03.github.io/weatherApp/>

Finding the real-time weather forecast and temperature of cities around the world. It is implemented by fetching the API data from OpenWeatherMap.

Tic-Tac-Toe game

🌐 <https://sak03.github.io/tic-tac-toe/>

This is also called chidiya-Kanta. This game includes background music, tab music, winning music, an exciting image, and JavaScript logic.

Analog Clock

🌐 https://sak03.github.io/analog_clock/

It shows the real-time location where we belong to. Used simple mathematical calculations to rotate the needle of the clock.

SUMMARY

As a Front-end Developer, my primary focus is on building visually appealing, responsive, and interactive websites that provide an excellent user experience. I am committed to staying up to date with the latest front-end technologies and trends, and I am always looking for new and innovative ways to enhance the user experience.

SKILLS

ReactJS	Redux	NextJS
JavaScript	TypeScript	Axios
Git/GitHub	BitBucket	JIRA
Formik	Prime React	Core UI
Material UI	Style Component	
HTML	CSS
