### VIRTUAL PERSONAL ASSISTENT

2021

PYTHON

A virtual assistant, also called digital assistant, is an application program that understands natural language voice commands and completes tasks for the user. We have so many virtual assistants, such as Apple's Siri, Amazon's Alexa and Microsoft's Cortana. This system is designed to be used efficiently on desktops.

### EXAM SYSTEM

2022

JAVA

They are used to set up multiple choice tests for set time periods that when submitted are automatically corrected and the results are displayed immediately after submitting the Administrator login.

### SNAKE GAME

2022

HTML,CSS & JAVA SCRIPT

Snake Game is a single-player game where the snake gets bigger by eating the food and tries to save itself from the boundary of the rectangle and if the snake eats their own body the game will be over. We are going to build a Snake Game using HTML, CSS, and JavaScript. Basic understanding of HTML, CSS, and JavaScript.
