📁 PROFESSIONAL EXPERIENCE (INTERNSHIP)

FullStack Web Developer (Wagkart Pet Services)

01/2023 – present | New Delhi

- During the initial phase, I was assigned a task to **troubleshoot minor issues** in order to grasp the overall flow of the code.
- **Front to back development** of building Lead CRM tool for Wagkart Pet Services

Angular.js

- Designed and implemented **user-friendly interface and forms** for managing leads and performing related tasks.
- Implemented a **Search bar feature** to facilitate efficient lead searching.
- Developed **Import and Export functionality** for the lead CRM user interface, enabling seamless **data integration from Excel files**.
- Created a user interface to display a comprehensive history of lead changes for improved tracking and analysis.

Node.js (API Design)

- Designed and implemented the APIs following the **Model-View-Controller (MVC) architecture**.
- **Created API endpoints** to handle various operations related to leads, such as **creating, updating, maintaing history** and retrieving lead information.

MySQL Workbench (Database Design)

- Designed a **relational database structure** to manage the CRM tool's data.
- Established a relationship between the "Owner" and "Leads" entities **using a foreign key**.
- Implemented a separate history database using a **key-value structure** to track changes and updates.
