03 PROJECTS

Jul 2021 — Aug 2021

Music Player -- Group of 3

Developed a music player web application using HTML, CSS, and JavaScript to provide users with an interactive and user-friendly platform for managing and playing their music library. The application incorporated key features such as music library management, playlist creation and customization, playback controls, and responsive design.

Responsibilities :

- Integrated the HTML5 audio element and utilized JavaScript libraries for seamless audio playback.
- Implemented features for uploading music files within the music library.
- Created functionalities for playlist management, including adding/removing songs, reordering songs, and renaming playlists.
- Implemented playback controls such as play, pause, next, previous, and music library with a responsive progress bar for seeking within songs.
