As an upcoming B.Tech IT graduate, my objective is to secure a role as a Node.js Backend Developer in a growth-oriented organization that will enable me to utilize my skills and education to contribute to the company's success while also promoting personal and professional growth.

Education

IIMT College of Engineering **2019 - 2023**
B.Tech Information Technology - 7.4 CGPA

GBSSS Shakti Nagar School **2019**
12th grade - 65%

Nalanda School **2017**
10th grade – 8.2 CGPA

Projects

Udemy Clone ([Link](#))

- Developed a full-stack web application named YouDayMe that allows users to buy and sell online courses
- Built the backend using Node.js, Express.js, and MongoDB Atlas with MVC architecture to handle user authentication, course creation, and payment processing
- Integrated a subscription model using Razor pay to enable users to purchase courses
- Built the frontend using React.js and Chakra UI to create a responsive and user-friendly interface

Fighting Game ([Link](#))

- Developed a web application game that allows two players to fight against each other
- Built using HTML Canvas, CSS, JavaScript
- Implemented a 60-second time limit for each game

Hotel Booking App ([Link](#))

- Created a hotel booking app using the MERN stack.
- Implemented Context APIs for state management and user authentication and authorization for secure transactions
- Designed an intuitive user interface that enables users to easily search for and book hotel rooms, with filters for price and amenities

Technical Skills

- **Programming Languages:** Java
