PROJECTS

Jelly Dash

(November 15, 2022 - January 05, 2023)

Game

In this project I have used GODOT Engine and GDScript. This is a GUI based 2-D game in which player has to collect the coins in a certain period of time.

Weather APP

(August 15, 2022 - August 31, 2022)

Web Application

In this project I have used my frontend skills like HTML , JAVASCRIPT, CSS, and weather API . With the help of this application we can find the weather of any citi or a country.
