 - Technologies used: HTML5, CSS3, Php, MYSQL
 - Team size:2
 - Duration: 6 months
 - Project Description: This website can be used by the both seller and customer, where the seller can post the product so that the can be reach out to more and more people. The customer can put the order to the cart.

Personal Projects Undertaken (to Enhance My Skills)

- **Project Title: NewsApp**
 - Technologies used: HTML5, CSS3, ReactJs,, REST API, Bootstrap
 - Project Description: I undertook a personal project called NewsApp to enhance my skills. This web-based application fetches daily news using an API. It is designed to provide an asynchronous browsing experience, allowing users to seamlessly access the latest news articles. I utilized HTML5, CSS3, and ReactJS to create the user interface, integrated REST API to retrieve news data, and implemented Bootstrap for responsive design and improved user experience. Through this project, I deepened my understanding of front-end development and gained hands-on experience with various technologies.

▪ **Project Title: iNoteBook**

- Technologies used: HTML5, CSS3, ReactJs, API, Bootstrap, MongoDB
- Project Description: For this personal project, I developed iNoteBook, an application that allows users to create, manage, and view their notes. To access the app's features, users are required to sign in. Once logged in, they can add, update, delete, and view their notes. The project implements CRUD (Create, Read, Update, Delete) functionality, enabling users to perform these actions seamlessly. I utilized HTML5 and CSS3 for the frontend design, ReactJS for building the user interface, API integration for handling data communication, Bootstrap for responsive design, and MongoDB for storing the notes. Through this project, I enhanced my skills in front-end development, API integration, and database management.

Experience

- Internship at Leet Wolf Technologies - WordPress Developer (6 months)
 - Collaborated with a team of developers to build and maintain WordPress websites.
 - Assisted in developing custom WordPress themes and plugins.
 - Troubleshoot and debugged issues on existing websites.
