EXPERIENCE

GLOBALLOGIC | SOFTWARE ENGINEER

September 2021 – Current | Noida, India

SOFTWARE ENGINEER

- Dark mode - Implemented dark mode features for the product as per the requirements.
- Bug fixing - Fixed all the reported bugs assigned and delivered a better product to the customer.
- Tablet Support - Implemented tablet-based features for the product so that it can support tablet web browsers also.
- POC - Completed various POCs and developed various features according to the problem given.

ASSOCIATE SOFTWARE ENGINEER

- The main purpose of this project is to decrease the ramp up time for on boarding process.
- Researched and worked along with senior management of the team to gather all the required information of the product.
- Coordinated with other module for evaluating on-boarding process resulting in a fit-for-purpose verdict and provided a recommendation on moving forward .
- Contributed to planning for easy on-boarding, reinforcement learning, and architecture.

SOFTWARE ENGINEER TRAINEE

- Attended the training organised by the company for the new joiner program.
- Worked in a team as a lead and also developed the required application for the assessment before joining the project.
- Created micro-services using .net and RestfulAPIs for basic CRUD operations. SqlServer is used for DB.

PROJECTS
