PERSONAL PROJECTS

• PLURALSIGHT Clone Welcome Page

Created a clone of Pluralsight's welcome page, a leading technology learning platform, using HTML5 for content structure and CSS3 for styling and responsiveness. Demonstrated expertise in front-end web development and a commitment to facilitating knowledge and skill development in the technology industry.

Tech Stack used - HTML, CSS

Role - Developer

• MYNTRA Clone Web Page

I Developed a clone of an online shopping website using HTML and CSS, ensuring a visually appealing and user-friendly interface. Employed HTML for structuring the webpage elements and CSS for styling and layout customization. Utilized CSS to create responsive designs, enabling the website to adapt seamlessly to different screen sizes and devices.
