OBJECTIVE

My objective is to work with an organization that can provide me with the opportunity to learn new skills and enhance my abilities to contribute towards the development of comprehensive web applications.

INTERNSHIP

FRONT END DEVELOPMENT

- I am currently pursuing an internship in front end Web Development, where I am gaining hands-on experience in developing end-to-end web applications using front-end technologies.
- During the internship, I have also worked on several personal projects, including Thali App using React and Redux, To-Do List, ShoppingList, Quote generator, Bmi, Faq page, gits search, and others. These projects have allowed me to apply my skills and knowledge to real-world scenarios and further improve my abilities.
