ABOUT ME

I'm Shivam, an aspiring web and software developer with intermediate skills. I specialize in crafting visually appealing and user-friendly websites, using languages like HTML, CSS, JavaScript, PHP, and Node. I'm passionate about staying updated with the latest technologies and frameworks and eager to contribute to impactful digital experiences. Let's connect and create something unique together!

PROFESSIONAL EXPERIENCE

Good Tech Minds | Full Stack Developer | Intern
May 2023 – Present

- As a MERN developer, I work on React and Node.js
- Collaborating with the frontend team: Working closely with frontend developers to integrate frontend components with backend functionalities, ensuring seamless communication and data flow.

Petals Charitable Trust | Web & Creative Designer
2023 – Present

- As a part-timer here I design various flyers and manage the current Wix website
- Started making a brand new Website from scratch

HACKATHON 7.0 SRM| FULL STACK DEVELOPMENT

- We created a 7-page website for logistics
- User Authentication and Authorization: Implementing authentication mechanisms, such as user login/signup and password management.

TECHNICAL PROJECTS

SKAD CHATBOT| Front - END Developer

- We developed a ChatBot for my college
- Gathering the most important and frequently asked questions & options we made the chatbot for students, faculties, Parents and potential future students.

SKD LOGISTICS| Full Stack Developer

- we made a 7-page web app for a logistics company.
- With an innovative idea and a small team of 3 people, we created this full-stack project using HTML, CSS, JAVASCRIPT and PHP.

ACHIEVEMENTS

Ideathon 2023	We created a Chatbot for hospital using NLP and won 3rd prize
SRM IR 2022	As a team, we created a website, chatbot and advertised the international relations section of SRM
CERTIFICATION	Certification on coursera of Full Stack, DBMS and Back-End
