

Maka Venkata Sai Ritesh

Student

I'm a third-year computer science student at Mahindra University, graduating in 2024. I've taken courses in programming, algorithms, databases, and software engineering, and my projects have honed my coding, problem-solving, and project management skills. I'm eager to apply these skills professionally

Education

Bachelor of Technology in Computer Science 2020-2024

Mahindra University, Hyderabad

CGPA: 7.37/10 (till 5th semester)

Intermediate 2018-2020

FIITJEE Junior College, Vijayawada

Percentage: 95.5 %

10th Standard 2018-2020

Narayana Olympiad School

GPA: 10/10

Projects

My Portfolio

WebDevelopment

I developed an interactive web portfolio using HTML, CSS, and JavaScript, leveraging the Flask library to integrate backend functionality, resulting in enhanced visuals and seamless user experience.

A visualization tool for analyzing scores

WebDevelopment

Utilizing HTML, CSS, JavaScript, and Flask, I developed a creative web tool showcasing individual students' GPA scores, backlog information, and profiles. The website features captivating visuals, while the backend is powered by the Flask Python library.

Weather-app

WebDevelopment

During my internship, I worked on the frontend development of a weather app website, collaborating with teammates who handled the backend part.

Scalable Deployment of WordPress Website on AWS

AWS

Deployed a scalable WordPress website on AWS infrastructure with load balancing, auto-scaling, and security measures for optimal performance and secure access.

Internship

Teach nook

Sep 2022 - Dec 2022

Web Development

Completed a two-month internship on web-development in the firm called Teachnook.

Certification

- Certified in Digital Marketing in Google
- Certified in Python, Java from Hacker rank
- Certified in Developer Virtual Experience Program from Accenture Forage
