(YMCA)

B-Tech in Computer Science

Jul 2019 – Jul 2023

CGPA: 8.4/10

Experience

TCNS Clothing Co.

Role: Software Support Engineer

Jan 2023 – Apr 2023

PROJECTS

Video Chat Application

- Technologies used in this project is React NodeJS, HTML and CSS
- I have used React for frontend task and NodeJs for backend task. We can generate a unique Id for communicating to a particular person, then we can talk to them like h WhatsApp video call feature.

Image Generator

- I created this project using **MERN** technology.
- It's totally based on the ChatGpt concept of image generation and I have used API key of OpenAI for generation of the images. I used MongoDB as backend of this project.

Text Manipulator

- Basic HTML, CSS and JavaScript is used to make this project.

CERTIFICATIONS

- Introduction to Internet of Things (NPTEL)
- English language for competitive Exams (NPTEL)
- Programming in Java (NPTEL)
- Joy of computing with Python (NPTEL)

SKILLS

- C
- Python(intermediate)
- JavaScript
- MERN Developer
- MS Office
- DBMS
- OOPs

Soft Skills

- Team worker
- Decision making
- Time management
