## PROJECTS

### • Dice-Game

Technologies used: HTML, CSS, Javascript.

Players can roll dice and scores are racked up according to dice number and if player gets 1 then current score turns to zero and player is switched.

### • PB AGROFOODS

Technologies used: HTML, CSS, Javascript.

Built a shopping website for the purpose of selling Kalanamak Rice by allowing costumers to order product in different packages and contact directly to seller.

### • WEATHER APP

Technologies used: Express.js, Javascript, CSS

This app uses API from openweathermap to get weather information all over the world. we can get temperature and weather related information for particular city by searching city name.
