## Experience

**Newton School** | Newton School Coding Bootcamp Internship

December 2019 - June 2022

- Full Stack Web Development with problem-solving.
- Technical Stack Learn- HTML, CSS, JS, Java, React and Bootstrap..
- Participated in various Contests organized by this platform
- Working on various projects- "Movie Review ", "Bus Service Demo", "Portfolio Website" and "Scroll Down Website"

## Projects

**Movie Review Website** | Reviewy ([link](#))

January 2023 - February 2023

Features:

- This site is completely responsive
- Different components for each Section
- Users login and signup authentication
- Having database using firebase
- Database using firebase

Tech Stack: React JS

My contribution:

- This is about movie review rating website like IMDb
- Users can signup through OTP
- After users login through password they can give their thought and rating on any movie
- Users can add movie card and on that anyone can review
- Reviews shows with users name and review's time
- We used bcrypt for encrypt users password
- All the details of user and their review are store in firebase database

**Portfolio Site** | Portfolio responsive website Using reactjs ([link](#))

October 2022 - November 2022

Features:

- This site is completely responsive
- Active navbar similar to original
- Different components for each Section
- Working side-menu and Smooth scrolling like original

Tech Stack : React JS

My contribution:

- This is a about my portfolio website
- Client and user can see my details through this portfolio
- This portfolio have many feature like testimonial, hamburger menu and having multiple component

**Bus Ticket booking demo clone** | Bus services using HTML, CSS ([link](#))

July 2022 - July 2022

Features:

- It is responsive
- Active navbar similar to original
- Smooth scrolling like original

Tech Stack : HTML, CSS & Bootstrap.

My contribution:

- This is a project about online bus booking service
- This is a completely responsive site having multiple pages

Features:

- This is completely responsive UI
- Active navbar similar to original
- Working side-menu
- Smooth scrolling like original.

Tech Stack : HTML, CSS & JavaScript

My contribution:

- This is project related to COLOR website project
- This project have smooth scrolling effect and responsive UI
- User can schedule a call according to their requirement

---

## Skills

Computer languages	Java, CSS, HTML, Javascript
Software Packages	React, Bootstrap, Windows
Soft Skills	Communication Skills

---

## Co-Curricular Activities

- Participated in Newton Coding Contests in 2022
- I have achieve 2 star on Hacker rank
- Participated in various coding competition at college level
