

Himanshu Bisht

Full Stack Developer

Entry-level Full Stack MERN Developer with expertise in MongoDB, Express, React, and Node.js (MERN) stack. Proficient in front-end technologies like HTML, CSS, and JavaScript. Strong understanding of back-end development, RESTful APIs, and database management. Detail-oriented and eager to contribute to the development of innovative web applications. Seeking an entry-level opportunity to apply and expand skills in a collaborative development team.

WORK EXPERIENCE

Full Stack Developer Trainee RSTech Softwares

04/2023 - Present

Noida, India

Achievements/Tasks

- Demonstrated proficiency as a full stack developer, contributing to real-world projects encompassing both frontend and backend development.
- Implemented essential frontend and backend fundamentals, driving successful project completion and delivering high-quality solutions.
- Developed efficient API endpoints using Node.js and Express to ensure seamless communication between front-end and back-end components.
- Utilized React and TypeScript to enhance project functionality and create a seamless user experience.
- Collaborated with senior developers to conduct thorough code reviews, ensuring adherence to best practices and maintaining code quality standards.

PERSONAL PROJECTS

Flashcards App

- Developed a flashcards application using the MERN stack, implementing TypeScript with React for the UI and utilizing Express with Node.js for the server-side functionality.
- Created a hierarchical structure where users can store information in the form of flashcards, with the ability to add child cards to capture additional details related to the main flashcards.
- Utilized MongoDB as the database for efficient data storage and retrieval.
- Implemented CSS for designing and styling the application, ensuring a visually appealing user experience.

Crypto Tracker

- Developed a cryptocurrency rate tracking app using React and JavaScript, leveraging the fundamental concepts of both technologies.
- Utilized Axios to efficiently retrieve real-time cryptocurrency data from a third-party API and display it within the app.

EDUCATION

MCA IGNOU

01/2023 - Present

New Delhi, India

Courses

- Software Engineering and Project Management.
- Database Management Systems (DBMS).
- Web Development and Technologies (HTML, CSS, JavaScript).
- Object-Oriented Programming (OOP).

BSc IGNOU

06/2018 - 06/2022

6.77

Courses

- Cellular and Molecular Biology in Zoology.
- Evolutionary Biology and Genetics.

ACHIEVEMENTS

State-Level Group Singing Competition: 3rd Place Winner (2016)
