Sirsa , India

TECHNICAL SKILLS

Languages: C, C++, Data Structures Algorithms, Dart, SQL, HTML

Frameworks and Tools: Git, Flutter, Firebase

Developer Tools: VS Code, Android Studio, Github

EXPERIENCE

Reway

Flutter Developer

Feb 2023 - April 2023

Remote

- Improved user experience and satisfaction in Reway app by developing and maintaining its backend, optimizing communication between dealer and customer apps.
- Utilized Firebase for seamless integration and secure database management, collaborating with team to troubleshoot and ensure timely project delivery.

ePatrakaar

Flutter Developer

Oct 2022 – Jan 2023

Remote

- Utilized the Android framework and Android Studio to develop a dynamic news application, delivering up-to-the-minute information to users.
- Designed and implemented a user-friendly UI with cross-platform compatibility.

PROJECTS

Chat App | [Android-Flutter](#)

June 2022 - July 2022

- Developed a secure, real-time chat application, ensuring a seamless and satisfying user experience.
- Enabled users to communicate with each other within the app while ensuring secure messaging, using industry-standard security protocols to protect user data.

To-Do List App | [Android-Flutter](#)

May 2022 - June 2022

- Designed and developed a to-do list application utilizing Flutter Provider and Flutter architecture, enabling efficient state management and ensuring optimal task organization and productivity.
- Enabled users to add and delete tasks as needed, improving task management and streamlining the user experience.

Weather App | [Android-Flutter](#)

April 2022 - May 2022

- Built a Flutter weather application with real-time weather data using the Geolocator package.
- Implemented a user-friendly UI, and ensured optimal performance through regular updates and maintenance.

CERTIFICATE

Data Structures and Algorithms (Udemy)

Aug 2022 - Sep 2022

EXTRACURRICULAR

International Organisation of Software Developers

Member

- A Coding Society where everyone help each other for the preparations ,having Coding Competitions and Orientations regarding the useful skills we all can learn.
