CaddMan 3D Technologies

Gurgaon, Haryana

(Dec 2021-Till now)

PROJECTS

MARBLEGRAM - REACTJS DEVELOPER

Coordinate with a team of UI developers to build quality web pages with cross-browser compatibility. Support the development of front-end systems using HTML, CSS, Bootstrap, JavaScript and ReactJs. I was involved in making all the pages Responsive for all screens.

FORM NEXT - REACTJS DEVELOPER

- Involved in developing the UI pages using HTML, CSS, Bootstrap coded in JavaScript and React Js for page functionality and pop-ups screen.
- Made them functional using Routing and Http Request in React also made API Calls for sending data to the server.
- Learnt & implemented best practices of front end development in ReactJs & Redux.
- Used React Js and Redux for templating for faster completion and developing reusable Components.
- Design multiple dynamic and browser compatible pages using HTML, CSS, JavaScript, ReactJs and Redux.
