Internship and Projects

Aug 2020- Jan 2021 Aashman Foundation

Created visually compelling content posters using Photoshop and other design tools.

Collaborated with the team to understand the organization's mission and values.

Developed designs that effectively communicated the message to the audience. Gained a deeper understanding of the importance of visual communication in non-profit organizations.

Flipkart Clone Personal Project

Created a project where I developed a Flipkart clone using HTML, CSS, and JavaScript. To ensure that the website looks similar to the Flipkart website, I used CSS to style the website. I also made sure that the website is responsive, meaning it looks good on both desktop and mobile devices. Overall, this project allowed me to showcase my skills in HTML, CSS, and JavaScript and demonstrated my ability to create a fully-functional e-commerce website.

Android Application for online learning app

This project allowed me to showcase my skills in Android development, UI/UX design, and backend integration. It also demonstrated my ability to deliver a high-quality app that provides a valuable service to users. To enhance the learning experience further, I also included features such as quizzes and interactive exercises that allow users to test their knowledge and receive immediate feedback.
