

# AMAN KUMAR

"I have a dream to build the best website in the world as I believe the world is going towards more digital with every second and I think I can play a big part of this change." Having excellent grades in my school and university, I have proven that I am fast learner and I can put my knowledge in the real examples like the projects which I did in my internship and hence if you hire me, I can be a great asset to your team."

## PERSONAL PROJECTS

### ►HOTSTAR CLONE (07/2022 - 06/2022)

- The project would require designing a user-friendly and visually appealing interface for the website and mobile app.
- The frontend team would need to create a responsive design that works well across various devices.
- The design team would need to create icons, logos, and other visual elements that are consistent with the branding of the platform.

### ►HOTEL MANAGEMENT WEBSITE (11/2022 - 12/2022)

- The team would need to create pages for the rooms, rates, and availability, allowing users to easily browse and book rooms.
- The design team would need to create an intuitive navigation system that allows users to easily find the information they need.
- The team would need to ensure that the website is optimized for search engines and integrates relevant keywords.

### ►SOCIAL MEDIA (04/2023 - Present)

- The project would involve creating a social media website that allows users to create profiles, share content, and interact with others online.
- The website would need to have a search function that allows users to find specific users or content.
- The website would need to have a news feed or timeline that displays posts from users the user follows or is friends with.
