SKILLS

Languages: Proficient in JavaScript, Typescript

Frameworks/Libraries: Proficient in Angular, Bootstrap, NgRx, RxJS

Experienced With HTML, CSS, SCSS, Restful API's - Integration, Unit-Testing

Cloud Technologies: AWS

Databases: MySQL

Key Skills: Teamwork, Hard-Working, Troubleshooting, Debugging

PERSONAL PROJECTS

- E-Commerce Website

Technology Used: Angular, Typescript, HTML, SCSS, Bootstrap, Restful API's

Created shopping website which has a list of items present a user can add their favorite item and they have to register themselves and give necessary information and then proceed with the payment gateway. It's a simple user-Friendly UI developed. I was responsible for designing a website that provides the facility of applying for the employee details like salary, Name, Contact Number Etc.

- **Netflix Clone Project**

Technology Used: Angular, Typescript, HTML, CSS, NgRx and RxJS.

I have created an application using Angular that looks similar to Netflix, created multiple cards which contain movie descriptions and added video links into the cards. Register and login themselves, users can add their favorite movies into their watch-list and watch them.

- **WMS (Wealth Management System)**

Technology Used: Angular, Typescript, MySQL.

I have created a Full Stack Application using Angular, ASP.NET and SQL database. This web app allows the user to view interactive web pages Register and login themselves, then users can take different subscription plans, see their dashboards and add or remove assets that they want.

ACHIEVEMENTS

- Awarded appreciation award for the best performer in the project.
- Certification in web Designing and Development in Code-Blue.
- Angular course in Code-Stu.
- JavaScript Certifies course in Code-Help.
- Solved Over 600 Competitive Coding Problems

EXTRACURRICULAR ACTIVITIES

- Founder Manager | CSE Cybersecurity Club – Galgotia University
- State Level Badminton Champion (Bronze level)
- Runner-Up in Tech City Marathon
- GitHub Campus Ambassador
