Achievements/Tasks

- Over this 6 months period I have developed so many projects
- I have developed E-Comm Dashboard, CRM
- Top Performer of the internship batch

PERSONAL PROJECTS

E-Comm Dashboard

- If a new user come he will be redirected to signup page, without signup or login he is not be able to access the rest of the pag
- After login he will be redirected to products page where he can see the products listed
- There he can add the product and he will be redirected to add product page
- He can update , delete, and filter the product based on search

E-Commerce App with Payment Gateway

- JWT is used for authentication
- Context API is used for state management
- Fully functional login and register functionality
- Two dashboards are there named admin and user
- Cart functionality is there to put products in the cart and checkout

CRM

- It has two dashboards
- One for admin and other for customers
- Customers can enquire, submit feedback etc
- Admin caan check all these with forget password functionality

Slambook

- It has photo upload functionality
