Looking for an entry-level position as a Software Engineer in a dynamic firm that values my analytical and technical skills and provides scope for updating my knowledge, I seek a company that will help me contribute to its development while concurrently aiding my personal growth.

EDUCATION

Buddha Institute of Technology

Bachelor of Technology in Mechanical Engineering

July 2018 – Aug 2022

Gorakhpur, U.P. (India)

EXPERIENCE

Recruitment Specialist

Maven Workforce LLC

June 2022 – Present

Noida, India

- Recruiting job seekers with good skills and required knowledge as per client's requirement.
- Possess good knowledge of different Visas and tax terms.
- Identified, contacted, and screened candidates for client IT positions.
- Conducted phone screenings and interviews with candidates.
- Negotiated salaries and benefits with candidates and managed the job offer process for candidates
- Provided feedback to candidates throughout the recruiting process.

PROJECTS

1. Food& Restaurant Website- HTML, CSS, Bootstrap, JavaScript

- This is a responsive website designed with the help of different technology and framework.
- It contains many different sections which makes it more attractive and makes it easy to do order and feedback. The data is also being collected in the backend of the website.
- **Learning from Project:** -The major learning that I gained from this project is how to make a website fully responsive using bootstrap for any screen and learn how to implement JavaScript in the website for backend.

2. E-Commerce Food Shop Website- HTML, CSS, Bootstrap

- In this project, I used different frontend technology to develop an E-commerce Food Shop website.
- It is fully responsive and contains all the major information which should be followed in a shop website.
- **Learning from Project:** -The major learning that I gained from this project is how to make product cards, headings for the products with good design using CSS, Bootstrap.

ACHIEVEMENTS

- Awarded at **Maven Workforce LLC** for discipline and attitude.
- 1st position in **Technical Model Presentation on Innovative Ideas** (TMP-II-2021) held on 9th & 10th of December 2021.

TECHNICAL SKILLS

Languages: JavaScript, C, SQL (MySQL, SQL Server)

Technologies/Frameworks: HTML, CSS, Bootstrap, WordPress, GitHub, MS Office.

CERTIFICATIONS

- **Full Stack Web Development** by Udemy (11/22-Present) (*Currently Pursuing*)
- **HTML5** by Great Learning (10/2022-11/2022)
- **My SQL Basics** by Great Learning (1/2022-Present)
