EDUCATION

BCA

Maulana Mazharul Haque Aribic & Persian
University Patna

06/2019 - 12/2022

Senior Secondary(XII)

PC college, Buxar

05/2016 - 05/2018

Secondary Education(X)

Shri sardha sahayogi high school lodhas

04/2014 - 05/2016

PERSONAL PROJECTS

Alarm clock

- <https://chhotekumar420.github.io/Alarm-clock/>
- I have a basic alarm clock web application using HTML, CSS, and JavaScript. Of course, I can customize the design and functionality to suit your needs.

Meals app

- The Meals app is a web application that helps users find recipes and plan their meals. Overall, by using HTML, CSS, and JavaScript, we can create a meal app that is not only functional but also visually appealing and easy to use. With the rise of health-consciousness and meal planning, such an app can be a great resource for people looking to improve their diet and live a healthier lifestyle.

Payroll Management System

- The Payroll Management System is a software application designed to efficiently manage and automate the payroll process within an organization. It provides a systematic approach to calculating employee salaries, generating paychecks, and maintaining accurate payroll records. This project aims to develop a comprehensive payroll

Developer Landing Page

- <https://chhotekumar420.github.io/developer-landing-page/>
- A developer landing page is a webpage designed specifically for developers or programmers, usually with the purpose of showcasing a product or service that caters to their needs.
