B.Tech. - Computer Engineering

Bharati Vidyapeeth University

2020 - Present

9.4 / 10 C.G.P.A

CBSE Class 11-12

Hansraj Model School

2018 - 2020

Delhi

PERSONAL PROJECTS

Weather-App Website (01/2023 - 02/2023)

- (HTML5, CSS3, JavaScript, Express.js with Node.js, OpenWeather Api)
- User Interaction: Developed a website where users can input their desired city or state to retrieve weather information.
- Real-time Weather Display: Utilized live API data in JSON format to fetch the current temperature and weather overview for the specified location.
- Data Extraction and Presentation: Parsed the API file to extract the necessary data and used JavaScript and HTML to display the weather information, including a visual representation such as a picture.
- The website is specifically designed to provide accurate weather conditions for the entered location.

Newsletter Sign-Up Website (11/2022 - 12/2022)

- (HTML5, CSS3, Bootstrap 4, JavaScript, Express.js with Node.js, Mailchimp API)
- Newsletter Sign-up Website: Developed a user-friendly website to collect Name and Email ID information.
- Mailchimp Integration: Utilized Mailchimp API to securely store user data on a server.
- Enhanced Communication: Enabled personalized email communication, targeting specific users and providing product information for marketing purposes.

ACHIEVEMENTS

30 Days of Google Cloud (09/2021 - 10/2021)

I participated and completed the 30 Days of Google Cloud in very few days and received goodies from the competition. It gave me a great insight into the working of Google's Cloud services and features.
