CAREER OBJECTIVE

Secure a responsible career opportunity to completely utilize my training & skills, while making a significant contribution to the success of the organization.

TRAINING

- C and C++ programming languages by Samyak Computer Classes.
- Undergone Internship in W3Era, an SEO Company in Jaipur.

PROJECTS

- Library Management System Using C programming
 - The project aims to provide an efficient and user-friendly interface for librarians to manage books, borrowers, and transactions.
 - The project follows modular programming principles, dividing the functionality into separate modules for ease of maintenance and code reusability.
 - The project is implemented using the C programming language, leveraging its low-level capabilities and efficiency for system-level tasks.
- Bus Reservation System Using C++
 - Bus reservation project is developed using C++ programming language and aims to automate the process of booking and managing bus tickets.
 - The project follows object-oriented programming principles, utilizing classes and objects to represent buses, seats, passengers, and bookings, promoting code reusability and modularity.

ACTIVITIES

- National Cadet Corps in Naval wing 'A' certificate.
- Played District Cricket Championship.
- Secured 2nd position in Cricket of JECRC Athlon 2022.

SKILLS
