Career Objective

As a passionate and enthusiastic front-end developer, I am excited to kick-start my career and contribute to building visually appealing and user-friendly websites. With a strong foundation in HTML, CSS, and JavaScript, I possess the skills necessary to transform design concepts into functional and responsive web interfaces. I am eager to continue learning and adapting to new technologies and best practices in order to create intuitive and immersive digital experiences.

Skills

Computer languages:	Java, CSS, HTML, JavaScript, Node.js, Express
Software Packages:	React
Additional Courses Taken:	Data Structure, Git(LalitPatil1634)
Soft Skills:	Time management, Written communication, Communication Skills, Responsibility

Experience

MDINDIA Health Insurance TPA | Executive   January 2021 - September 2021

- Delivering information to the Insurance company about the client's medical by mail.
- Worked with the sales team to collaboratively reach targets, consistently meeting or exceeding personal quotas.
- Used Excel and Company Software to maintain new and existing accounts.

Projects

Amazon Prime Clone | Newton School (link)   November 2022 - December 2022

- Description: This is a clone of the popular e-commerce website Amazon. I have created it with HTML, CSS, and JavaScript in the front end.
- Features: Efficient and Pleasant user interface.
- Tech Stack: HTML, CSS, and JavaScript.

Adventure Website | Newton School (link)   December 2022 – January 2022

- Description: This website was built from scratch using mainly React Hooks and React Router. The website is fully responsive across screen sizes with an attractive dark theme, and reusable card components, and can easily be customized with animated background for the header and throughout the interface.
- Features: Efficient and pleasant User Interface, Reusable components throughout code, Hover and animation effects, card links, and Responsive format on different devices.
- Tech Stack: HTML, CSS, JavaScript, React.

Expense Management System | Newton School (link)   January 2023 – February 2023

- Description: This an expense tracker is a platform where we will list all our income and expenditures from various sources like salary, food, travel, medical, education, etc. to make an analysis of our money. So we can have an idea of where we are spending our amount.
- Features: User can Register, Login, Add, Update, Delete and Analyze the data.
- Tech Stack: HTML, CSS, Ant Design, React, Node.JS, Express.JS, MongoDB.

Internship and Certifications

Newton School | Newton School Coding Boot Camp   January 2022 - Present

- Full Stack Web Development along with problem-solving.
- Technical Stack Learnt: React, JavaScript, Node JS, Mongo DB, MySQL, HTML, CSS, Bootstrap, and Data Structure with Java.
- Participated in various coding contests organized by the platform.
- Worked on various projects like Movie Booking App, Adventure Website, and Game.

Education

Bachelor of Computer Application in 2019 from North Maharashtra with CGPA 4.71.

Co-Curricular Activities

• Participated in various coding contests organized by the Newton School.
