EDUCATION

- **Institute of Engineering and Technology** — Lucknow, India
  Bachelor of Engineering in Computer Science; GPA: 8.56 — *Aug. 2020 – Aug. 2024*

EXPERIENCE

- **Bhaiyapoints**
  Full Stack Developer — *Mar 2023 - Present*

  Collaborated with a Senior Developers to create enhanced and user-friendly web pages and Backend Support.Utilized advanced web technologies such as **NodeJs, React, NextJs, Tailwind CSS, and JavaScript** to develop and improve **website functionality**. My responsibilities included writing code from scratch, conducting tests, API testing and ensuring seamless integration of new features.

- **IBM**
  FrontEnd Developer — *Jan 2023 - Mar 2023*

  Collaborated with a Senior Developers to create enhanced and user-friendly web pages for clients.Utilized advanced web technologies such as **React, NextJs, Tailwind CSS, and JavaScript** to develop and improve **website functionality**.

- **10X Academy**
  DSA Problem Solver Intern — *June 2022 - Dec 2022*

  Provided **individualized** problem-solving support through one-on-one sessions, as well as facilitated engaging bootcamps on Web Development, Data Structures, and Algorithms to a diverse cohort of students at 10X Academy.

PROJECTS

- [Doctor Appointment App](#): Developed full-stack real-time chat application in Node.js andReact.js and hosted servers using Express.js. MongoDb database and mongoose library were used for storage of users and tasks schema.The secure registration and login system was created with bcrypt and JSON web tokens. By Using TECH **Node.js, Express.js, MongoDB, React, JavaScript, HTML, and CSS.**

- [Weather-Application](#): Mapbox API used for extracting the geolocation then sends that information to Weatherstack API for weather data. BY Using TECH **Node.js, Express.js, MongoDB, React, JavaScript, HTML, and CSS.**

- [Task Manager API](#): A task manager back-end API to give users a way to keep a record of all their To-do tasks developed. By Using TECH**ReactJs, JavaScript, and HTML**.

ACHIEVEMENTS

- **Google Kickstart 2022 round E**: Global rank **2388** among **13000+** global participants.
- **TVS Credit 2022**: Our Team qualified for **round 3** where we built a prototype that ***predicts the price*** of used automobiles.
- [Codeforces](#) : **Rating(Max)- Pupil (1238)**
- [Codchef](#) : **Rating(Max)- 4 star (1697)**
- **Job-aThon**: Winner of job-aThon (Won Goodies and cash prizes) conducted by GFG among **3000+** students.

TECHNICAL SKILLS

- **Data Structures And Algorithms, MERN Stack Developer**
- **Basic Languages :** C, C++, Python, JavaScript, SQL, NoSQL, Java
- **Skills :** HTML, CSS, MongoDB, ExpressJS, NodeJS, ReactJS, REST API
- **Tools :** VSCode, Postman, Git and Github, LINUX, Sublime Text, Windows
