EDUCATION

Institute of Engineering and Technology (IET), Lucknow   India
Bachelor of Technology in Information Technology, 8.3/10   2020-2024

EXPERIENCES

Software Development Intern (Backend)   Firebond   *May – present 2023*

➢ Working on building APIs for all social media like discord, telegram, Twitter, Twitch analytics.
➢ TechUsed:- **Golang | PostgreSQL | Git**

Software Development Intern   Orga Plants   *April – May 2023*

➢ Developed Login page in the React.js and used Nodejs for backend development.
➢ Implemented authentication in back-end and hashed the user information to secure the login page.
➢ TechUsed:- **HTML | CSS | ReactJs | Express | Nodejs | MongoDB**

PROJECTS

BlogiFy (view)

➢ I created a blogging app that allows users to create their own profiles and post their blogs.
➢ I used Multer to enable file uploads in the app and implemented password hashing for
    enhanced security in the web application.
➢ I implement JWT auth. in the web app, ensuring that only logged-in users can access the services
➢ Tech Used - **NodeJs | ExpressJs | Git | API | MongoDB | JWT | Multer |**

DailyExercise (view)(website)

➢ This is a fitness web app designs for daily exercise, built using ReactJs.
➢ The exercise section of the web app features various types of exercise,
    each presented with an animation to demonstrate the proper technique.
➢ The web provides exercises in multiple categories such as back, cardio, legs, chest and more.
➢ Tech Used **ReactJs | MaterialUI |JavaScript| Git | HTML | CSS | HTML**

SmallURL (view)

➢ I created a URL shortener app that can quickly shorten long URLS into a few characters.
➢ The web app includes a rate limiting feature that restrict users after they have accessed the service
    a certain number of times
➢ I implement JWT authen. in the web app, ensuring that only logged-in users can access the services.
➢ Tech Used - **NodeJs | ExpressJs | Git | API | MongoDB | JWT |**

ACHIEVEMENTS

➢ Solved **1000**+ problems in Data Structures & Algorithms on various platforms.
➢ Handles: LeetCode , GeekforGeeks, Codeforces, CodeChef
➢ Ranked **79th** among 6000+ participants in Cook-off 2023 Codechef.
➢ Ranked **471th** among 6000+ participants in Newton's Coding Challenge.
➢ Ranked **952th** among 22282 participants in Leetcode Biweekly Contest 101.
➢ Globally ranked **1511th** among 23844 participants in Codeforces Round 836.
➢ Globally Ranked **799**th in Google Kickstart Round H in 2022.

SKILLS

➢ **Languages** – C++, Golang, C, JavaScript, HTML, CSS3, SQL   ➢ **Framework** – React.js, Express.js
➢ **Tools** – Git, GitHub, NodeJs, MongoDB, RestAPIs, Git, Linux, VScode, Postman.
➢ **Coursework** – Object-oriented programming, Operating System, Database Management System.

RESPONSIBILITY

➢ Teaching Assistant at **coding ninjas** solved more than 500+ doubts in Data Structures and Algorithms.
➢ Assisted more than 30+ students in a course and debugged codes and helped in there learning.
