EDUCATION

MCA
Kurukshetra university, kurukshetra
08/2020 - 06/2022   *7.86*

Bsc. Computer Science
B.P.S.M.V. Khanpur kalan, Sonipat
05/2017 - 07/2020   *7.52*

PERSONAL PROJECTS

Painting Website
- Created a Painting website that helps users purchase different paintings from anywhere.
- Designed four pages with a contact page where users also can contact me.
- Responsive to different screen resolutions as I have used Bootstrap.
- The technology used:- HTML, CSS, Bootstrap
- GitHub , LOOM

Dictionary Application
- Created a Dictionary Application to search for the meaning of valid words and show the error if the word is not valid.
- Designed using HTML, CSS, and javascript fetch method which send the request to the server and receives the response.
- Incorporated content from the server and show the result, part of speech, phonetics, definition, and example of the search word.
- The technology used:- HTML, CSS, JavaScript.
- Project explanation: - GitHub, LOOM

Add-Contact Application
- Created a Contact Add where we can add the name, email, and number.
- Designed with CSS and store the name, email, and number in temporary storage.
- If we refresh the page the contact will not be deleted until we trash that contact.
- We can add and delete the contact from the temporary file.
- The technology used :- React
- Project explanation: - GitHub

Login Registration Page
- Technology Used :- Reactjs, Nodejs, MongoDB
- Firstly Register the email and phone Number and Creae Your password
- Then Login with your details and the data of the registered user will be stored in mongoDB.
- Then render on the pages where you can add, delete and update the information about the student in the library
- GitHub

SKILLS

C++   HTML   CSS   Bootstrap
javaScript   React   Nodejs   MongoDB
SQL   networking   Wordpress   Git
Problem-Solving   core java
