Percentage: 70.50%%

CAPTAIN R.C. SR. SEC. SCHOOL   March 2015
MATRIC   Hisar, Haryana
Percentage: 80%%

EXPERIENCE

ONETICK TECHNOLOGY PVT. LTD. | TRAINEE   Faridabad, Haryana | sept 2022 – March 2023

In this time period i learned all bout MERN. Developing and designing front end web architecture. I learned how to worked with UI side as well as server side. Learned how to make and use api's in our project, how to handle multiple components. And i make many projects on this.

SKILLS

PROGRAMMING LANGUAGES	HTML, CSS, Javascript, Node js, ES6
LIBRARIES/FRAMEWORKS	React js, Express, Bootstrap, Tailwind
TOOLS / PLATFORMS	Window, Ubuntu, Github
DATABASES	MongoDB

PERSONAL PROJECTS

BOOKING APP   MERN

With this project i learned how to work on a real project in industry. And this project done by me, i handle client side as well as server side

This project based on Airbnb, in this we offers people an easy, relatively stress-free way to earn some income from thier property.

In this people can easily book Apartment, Home rather than hotels, and also cheaper than hotels

NEWS WEB-APP   Node js, Express, EJS

In this project i build a simple News website/app using Node.js, Express, EJS and we'll be also using some dependencies such as AXIOS, Body-Parser and Nodemon.

The website is going to have two main features which are Searching and displaying News Articles. I am going to keep it simple and straight to the point. No bootstrap and we will have a very minimal amount of CSS (SCSS).
