I am looking for an entry-level position to kickstart my career in web development as frontend developer (React). I wish to work in a dynamic organisation that will contribute to my professional and personal growth while I contribute to the growth of the company as well as engage in opportunities to further the company's goal. My career objective is to work sincerely and to get more knowledge about work assigned to me. My passion is to become a potential React Developer by utilizing my skills and abilities.
